

## Overview

Recognizing quickly, the advent of a new technological revolution ignited by blockchain and distributed ledger technology, we are the first law firm in Korea to have launched a fully dedicated Blockchain + Digital Assets practice group.

Our dedicated Blockchain + Digital Assets practice group offers unprecedented service to guide our clients in developing new commercial frameworks based on blockchain and distributed ledger technology. Our cross-practice and cross-industry team unites lawyers in our firm that practice in the fields of finance, mergers and acquisitions, investment, fintech, technology transactions, real estate, financial services, intellectual property, privacy and data security, capital markets, tax and accounting, restructuring, and other areas, and provides our clients with cutting-edge knowledge and strategic guidance related to blockchain, digital currency and distributed ledger technology.
